DETAILED ACTION

Applicant's preliminary amendment, filed 2-16-01 (Paper No. 4) has been entered.

Claims 1-43, 50-55 and 61 are pending.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-43, 50-54 and 61, drawn to a pharmaceutical composition comprising copolymer I and microcrystalline cellulose, and a process for manufacturing said composition, classified in class 514, subclass 2.

II. Claim 55, drawn to a method for treating an autoimmune disease comprising administering pharmaceutical composition comprising copolymer 1 and an enteric coating, classified in class 424, subclass 184.1. The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product, the pharmaceutical composition, can be used as an immunogen in a process of making monoclonal antibodies, or in a process of affinity purification, as well as in a method for treating autoimmune disease .

Art Unit: 1644

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
